## What is a Contributory Mortgage Fund?

Unlike the more common pooled funds where all loans secure investors funds, with a contributory mortgage, investors have the advantage of selecting the specific mortgage that will secure their investment.

With a range of interest returns and security types, investments can be tailored to suit individual risk profiles. Intending investors are provided with a summary of the proposed mortgage loan, including the valuation of the security property.

### IMPORTANT INFORMATION

This document does not constitute financial advice. It is also not comprehensive as it is intended to be an overview only, providing a summary of points usually of interest to investors. Intending investors must obtain a copy of the Fund's Information Memorandum (IM) and an investment can only be made by completing the application form included in the IM. Intending investors should seek independent financial advice on whether an investment in the Fund is appropriate for them. All investments, including that of the Millbrook Income Fund, involve the risk of losing all or part of investors investment capital and/or interest. Past performance is not necessarily a guide to future performance.
